

# Genetic Test Report

## Patient details

Name  
DOB  
Sex  
Sample Type

## Test ordered by

Name  
Doctor identification number  
Hospital

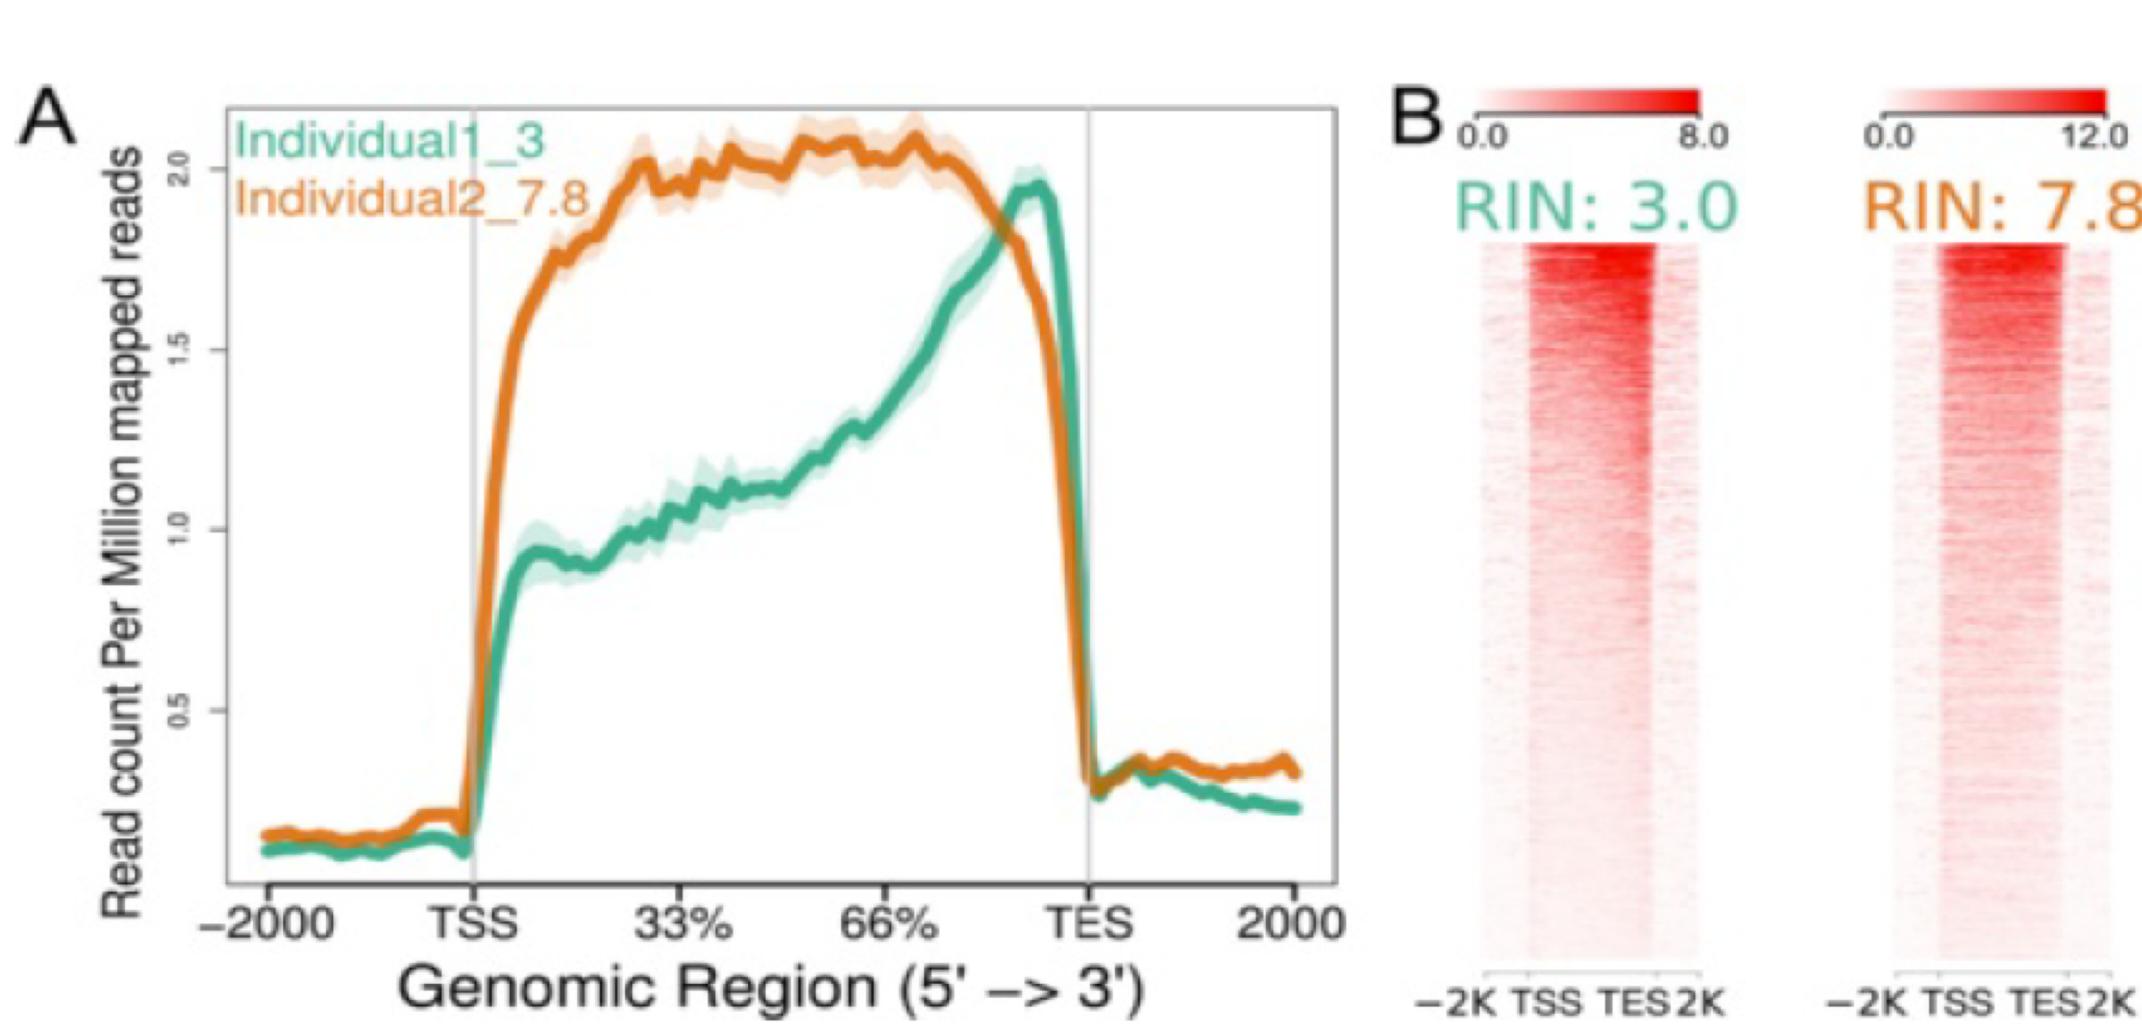

## Reason for test

## Lab information

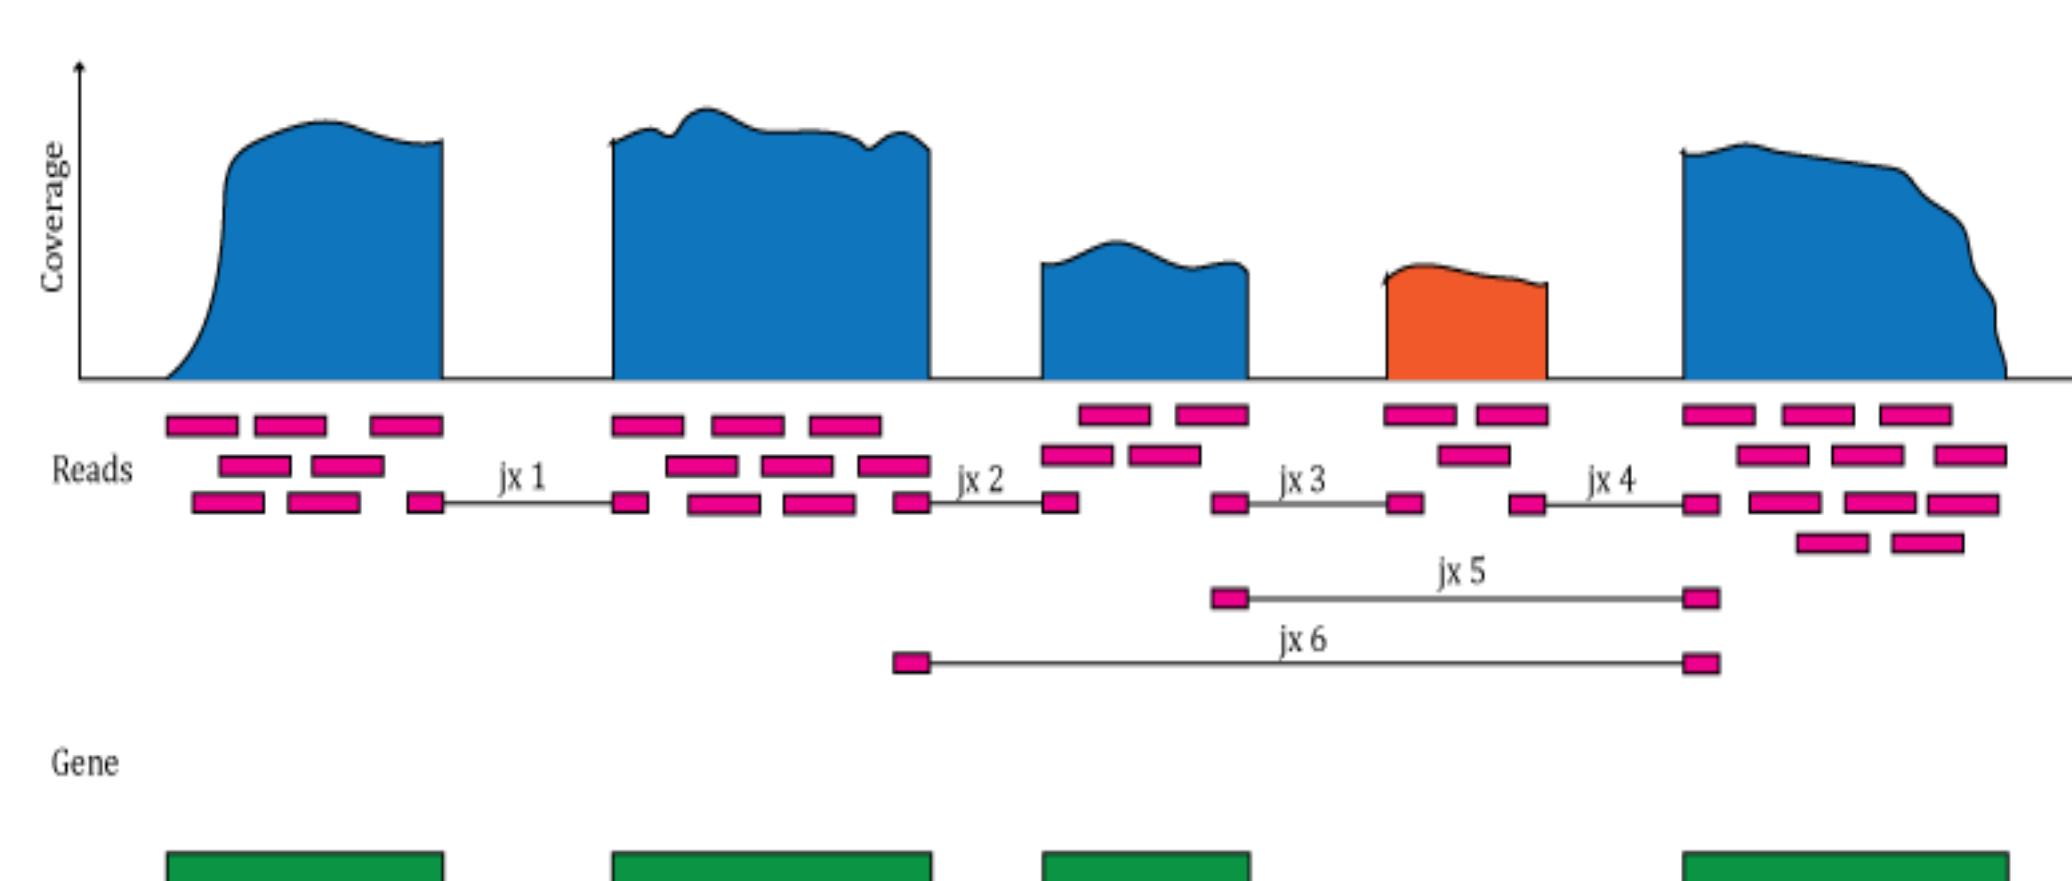

Test done by	
Telephone	
Date received	
Date reported	
Lab ID number	
Processing pipeline	
Alignment	
Sequencing platform	
Sequencing libraries	
List of bioinformatics tools	

## Quality Control

### RIN Score

### Coverage

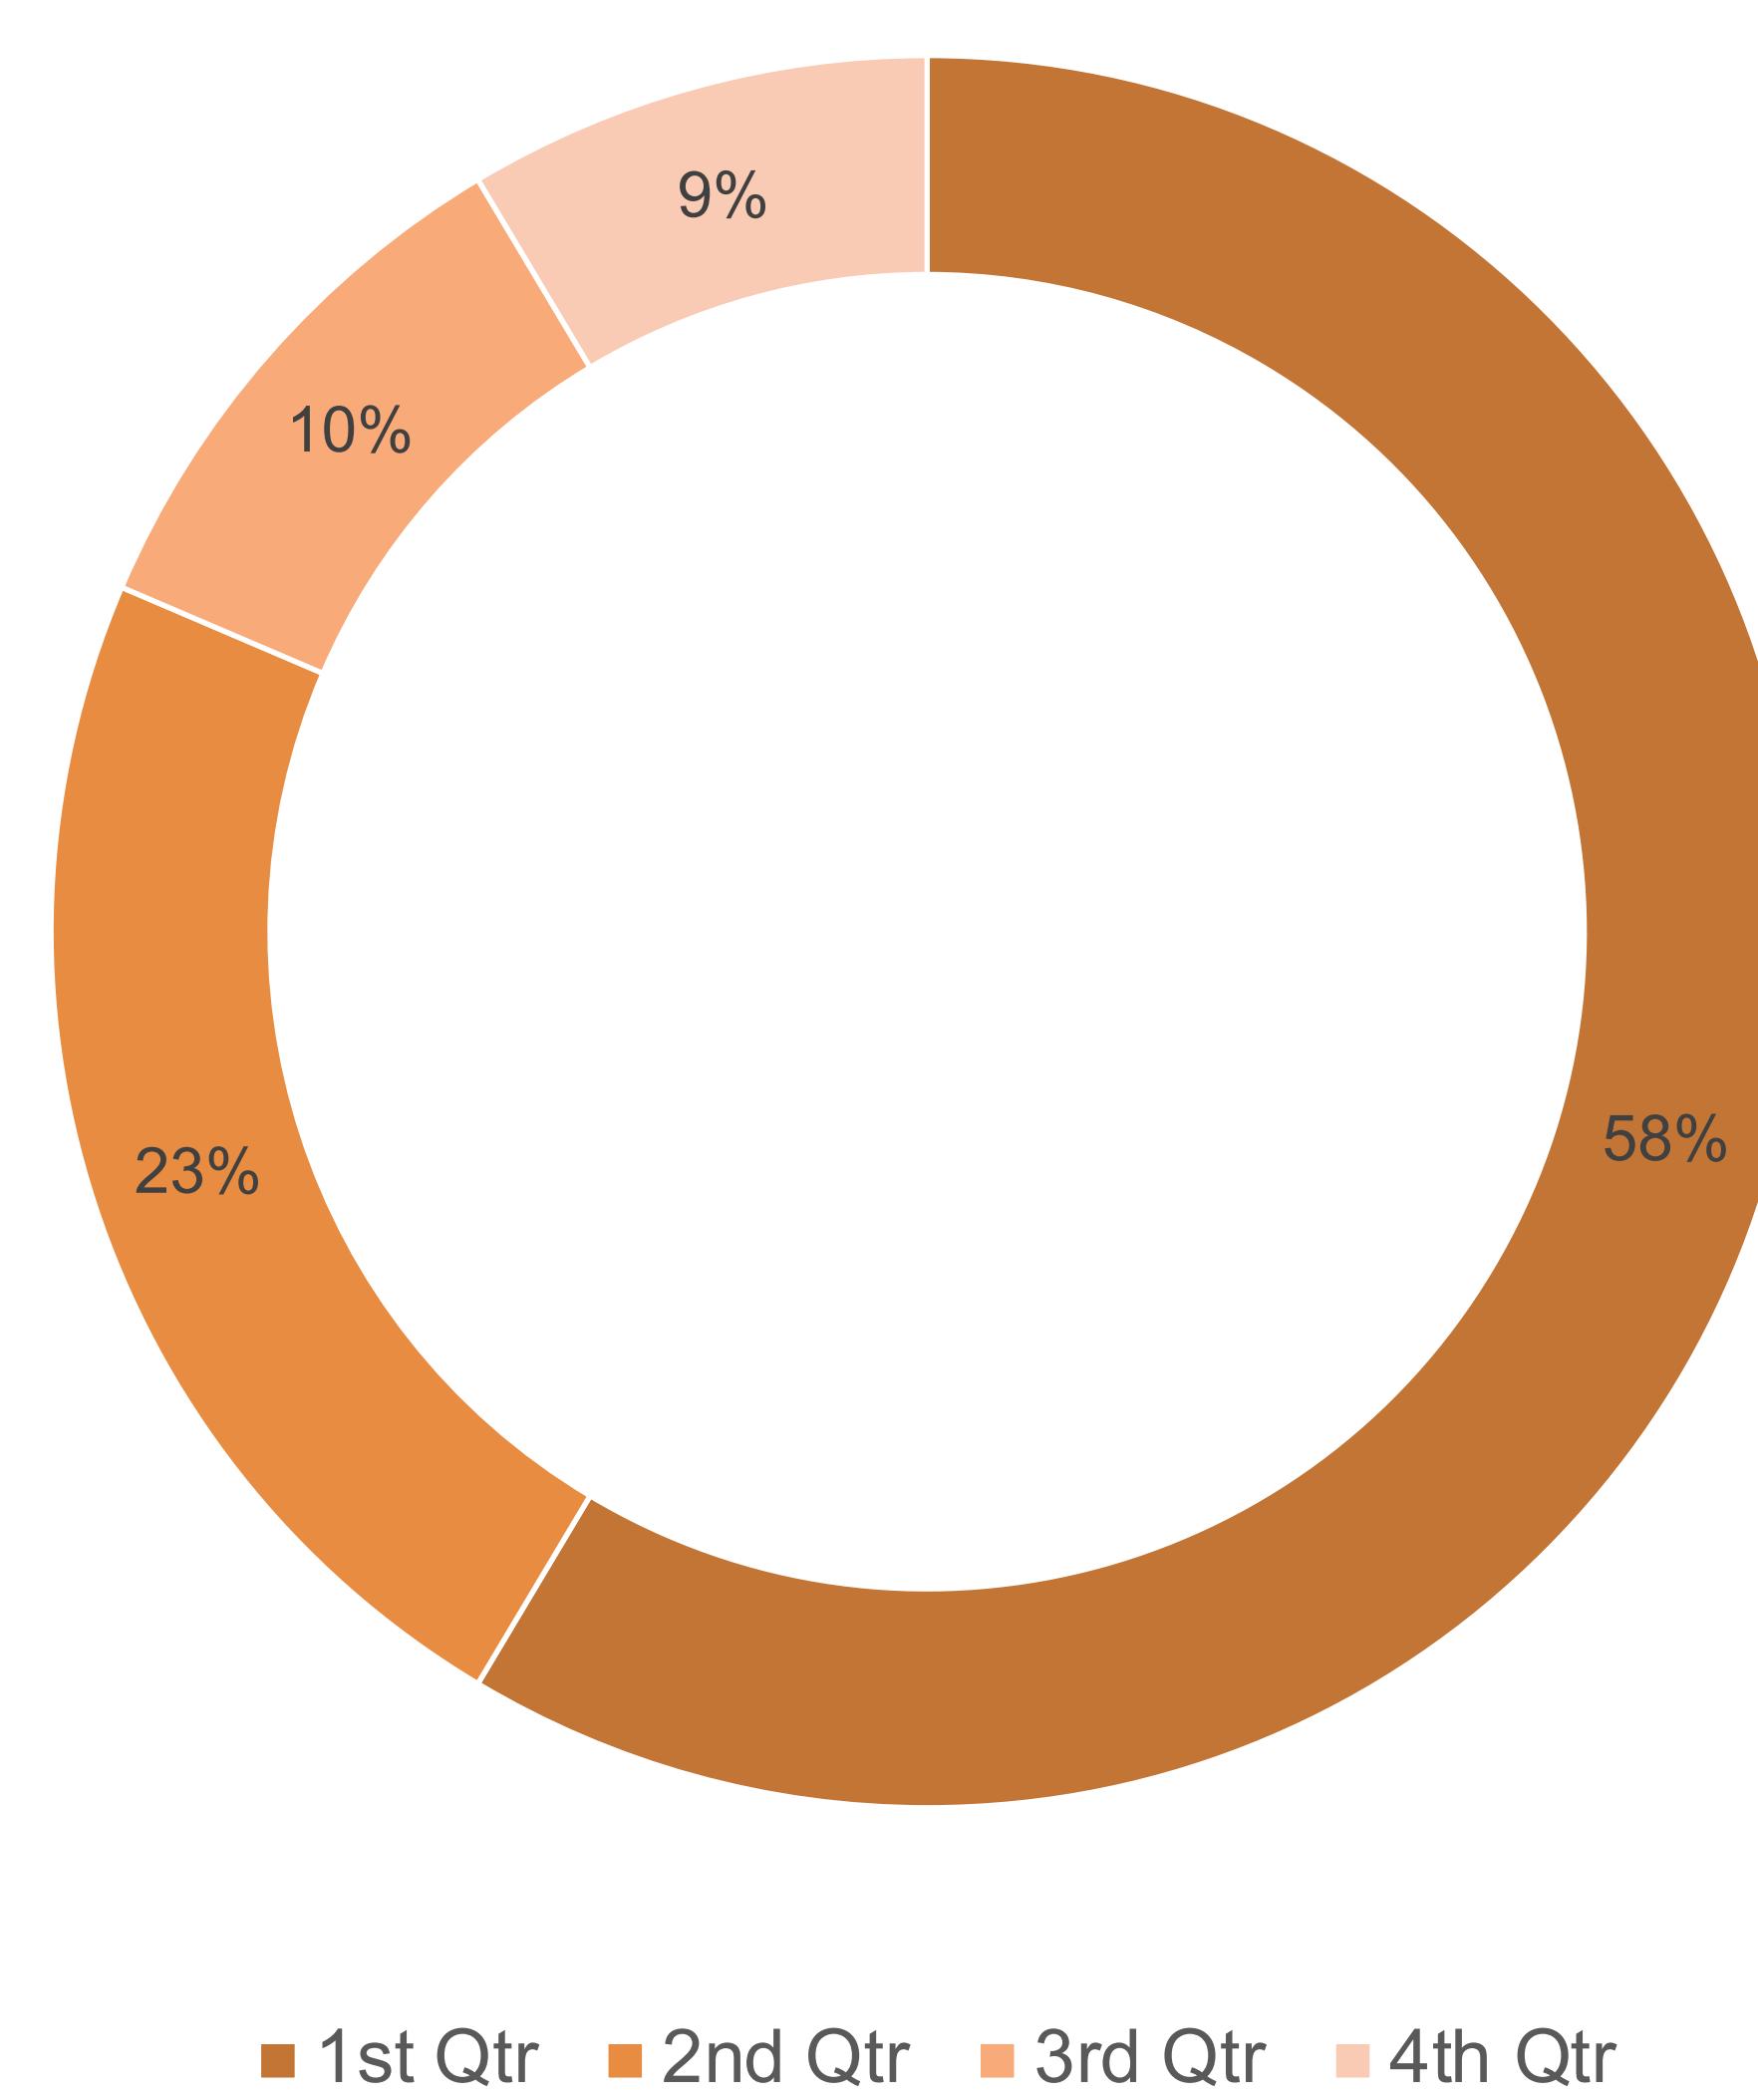

## About the test

## About the genetic variant

## What this results means for you

## More information

## Summary of genetic variants

## More readings
